You can't describe it.

You have to quilt with it and when you do, you will have a smile on your face.

The simple, easy-to-use controls combined with its lightweight handling make Freddie the perfect quilting machine for homes, quilt studios or commercial quilt shops. Freddie is a high quality, technology-filled machine that will bring you a lifetime of quilting enjoyment.

What makes Freddie so special?

Touch pad controls

The simple touch pad and handle-mounted controls on the Freddie let you operate and control your quilting with the touch of a button. And features like the stitches per inch selector and the single stitch mode all work together to make the Freddie simple to learn and easy to operate. You will be able to complete projects faster and easier than you ever dreamed possible.

Low bobbin indicator

The low bobbin indicator lets you know when it's time to change your bobbin.

Top thread break sensor

The top thread break sensor alerts you if the top thread breaks so you can quickly get back to quilting.

Multi-Position Handles

The curved handles on the front of APQS machines are ergonomically designed and adjustable to "fit" your individual size and shape. Our handles are horizontal, and although they may feel different at first, you'll soon get the hang of them and agree that they are much less stressful on your body. Our handles help diminish the risk of carpal tunnel, shoulder and elbow problems. In addition, they allow for excellent visibility of the quilting area.

Deluxe table

The 8-, 10-, 12- or 14-foot deluxe table with adjustable height lets you dial in the perfect height for you and is full of great time-saving features. For example, the quilt top, batting and backing all load from the top. This simplifies bobbin changes and lets you quilt while sitting. Our tables do not have junction points in the rails or the poles, which gives our wheels smooth movement and prevents sway.
