 Weight: 50 lbs (23 kg)
 Needle speed: 0-3500 SPM
 Footprint: 5'6" W x 8', 10', 12' or 14' L

Beneath the surface lies some of the most advanced technology available.

Combining innovation and engineering with timeless design, the Millie is our top-of-the-line machine that features every feature a quilter could ever want. By embracing technology and blending it with the traditional skills of master craftspeople, this timeless, treasured longarm machine will bring you a lifetime of quilting enjoyment.

What makes Millie so special?

Touch pad controls

The simple touch pad and handle-mounted controls on the Millie let you operate and control your quilting with the touch of a button. You will be able to complete projects faster and easier than you ever dreamed possible.

Low bobbin indicator

The low bobbin indicator lets you know when it's time to change your bobbin.

Top thread break sensor

The top thread break sensor alerts you if the top thread breaks so you can quickly get back to quilting.

Lower bobbin thread cutter

Cut your bobbin thread with the touch of a button to quickly swap out thread colors and change the location of the machine on the quilt.

Directional locks

Millie's wheels can be locked electronically to accommodate both straight-line horizontal and vertical quilting. Easily baste quilt tops and sew straight horizontal or vertical lines with precision.

Multi-Position Handles

The curved handles on the front of APQS machines are ergonomically designed and adjustable to "fit" your individual size and shape. Our handles are horizontal, and although they may feel different at first, you'll soon get the hang of them and agree that they are much less stressful on your body. Our handles help diminish the risk of carpal tunnel, shoulder and elbow problems. In addition, they allow for excellent visibility of the quilting area.

Deluxe table

The 8-, 10-, 12- or 14-foot deluxe table with adjustable height lets you dial in the perfect height for you and is full of great time-saving features. For example, the quilt top, batting and backing all load from the top. This simplifies bobbin changes and lets you quilt while sitting. Our tables do not have junction points in the rails or the poles, which gives our wheels smooth movement and prevents sway.

Available options for Millie

- Quilt Path™ computerized quilting system
- Quilt Glide stitch mode
- Bliss™ track system
- Overhead lighting
- Automatic quilt advance with foot pedal control
- Hydraulic table lift
- In-home set-up by factory-certified technician

Millie **30**

Our Millie30 has all the features of our top-of-the-line Millie machine PLUS four extra inches of throat space! With a deeper throat you'll be able to complete quilts faster and incorporate even bigger design elements. Millie30 is especially well suited for quilters who plan to use a computerized quilting system with their machine.
