Weight: 50 lbs (23 kg)

Needle speed: 0-3500 SPM

Footprint: 5' 10" W x 8', 10', 12' or 14' L

## Beneath the surface lies some of the most advanced technology available.

Combining innovation and engineering with timeless design, the Millie is our top-of-the-line machine built with every feature a quilter could ever want. By embracing technology and blending it with the traditional skills of master craftspeople, this timeless, treasured longarm machine will bring you a lifetime of quilting enjoyment.

### What makes Millie so special?

#### Touch pad controls

The simple touch pad and handle-mounted controls on the Millie let you operate and control your quilting with the touch of a button. You will be able to complete projects faster and easier than you ever dreamed possible.

#### Low bobbin indicator

You will not have to worry about quilting a design, only to discover you ran out of bobbin thread several blocks back! The low bobbin indicator alerts you, so you can change it in plenty of time.

#### Top thread break sensor

Whether you're working on the front or back of the machine, an audible alert and visual signal let you know if your top thread breaks so you can quickly get back to quilting.

#### Lower bobbin thread cutter

This exclusive Millie feature lets you cut your bobbin with a simple touch of a button to quickly swap out thread colors and move to a new area of your quilt.

#### Directional locks

By pressing a single button, you'll quilt perfectly straight horizontal and vertical lines with this exclusive Millie feature. Easily baste quilt tops and keep loaded quilts straight as you work.

#### Front & rear multi-position handles

Millie's front and rear multi-position handles are designed to adjust to "fit" your individual shape and size. Adjust the handles for your comfort, to quilt longer and with less fatigue. Millie's handles help reduce the risk of carpal tunnel as well as shoulder and elbow problems. In addition, the front handles are designed to give you excellent needle visibility.

#### Deluxe table

The 8-, 10-, 12- or 14-foot deluxe table with adjustable height is full of great time-saving features. For example, the quilt top, batting and backing all load from the top to simplify bobbin changes, allowing you to quilt while sitting. Our compression brake lets you quickly adjust each quilt layer to handle delicate antique quilts or heavy t-shirt quilts with ease. And our table rails and poles have no junction points, which allow our machines to stay on course for uninterrupted quilting.

#### Available options for Millie

- Quilt Path™ computerized quilting system
- Quilt Glide stitch mode
- Bliss™ track system
- Overhead lighting
- Automatic Quilt Advance with foot pedal control
- Hydraulic table lift
- In-home set-up by factory-certified technician

*Millie* 30

Our Millie30 has all the features of our top-of-the-line Millie machine PLUS four extra inches of throat space! With a deeper throat you'll be able to complete quilts faster and incorporate even bigger design elements. The front handles are independently adjustable up and down while also featuring tilting hand grips. Millie30 is especially well suited for quilters who plan to use a computerized quilting system with their machine.
