

Rest easy with our lifetime warranty

All new APQS quilting machines are backed by a lifetime warranty on parts and labor. How can we provide a lifetime warranty?

We have the best team

Building an APQS longarm requires a great deal of skill and many years of experience. That's why every hand that touches an APQS longarm is an expert at its particular task. Our team pays attention to the smallest details.

We combine traditional handcraftsmanship with modern manufacturing techniques. That's the only way we feel it's possible to incorporate the infinite amount of skill, craftsmanship and love that characterize these beautiful machines. After all, automated assembly line production could never create the high-quality longarms our customers have come to expect of us.

We use the best materials

The long service life of an APQS machine is not something that just happens. Because our longarm machines are crafted with only the best materials and built by skilled craftspeople, your machine is like magic in your hands.

Other machines are made from cast materials that are quite heavy or plastic materials that are not as durable. All APQS longarms are built by hand with the finest grades of aircraft aluminum.

This dramatically reduces the weight while maintaining integrity and strength, and virtually eliminating vibration. Our machines are incredibly lightweight, making them easier to move and easier to use.

Regardless of which APQS longarm you choose, our hands make quilting work like magic in yours.
